

## PostDoc Oral Microbiology and Immunology

We are seeking qualified applicants for research and teaching in the area of Medical & Oral Microbiology/Immunology, with special emphasis on (oral) microbial ecology and immunology, microbiomics/metagenomics, bioinformatics, pathogenicity and diagnostic.

The position is available from 1st. October 2017 (successors Dr. Karsten Henne) **for a three years term**. If the candidate is successful, the option for Habilitation (post-doctoral lecturing qualification, professorial thesis) will be offered **and a career supported**. The successful candidate will be expected to show an active commitment to the student's (dentistry, biology) curriculum of the RWTH Faculties.

Qualification requirements include a PhD or MD/Ph.D. degree, appropriate postdoctoral training and a 3 year research plan. Applicants should have a strong research record. Within one year most of the teaching activities should be in German but starting with English is an option. The pay group is currently TV-L 13, but income depends on the applicant's qualification and co-parameters.

The application should include supporting documents which demonstrate success in research, external funding & teaching.

If you are interested, please respond to the address given below.

RWTH Aachen University, one of the leading German universities, is certified as a family-friendly university. We particularly welcome and encourage applications from women, disabled people and ethnic minority groups, recognizing they are underrepresented across RWTH Aachen University. The principles of fair and open competition apply and appointments will be made on merit.
