

Field application specialist:

HiMedia Laboratories Pvt. Ltd. is a worldwide leading, family owned company with headquarter in Mumbai, India. To serve Europe we have created a subsidiary HiMedia Laboratories GmbH, located in Einhausen, Germany.

Since more than 40 years HiMedia is serving the world with products for Microbiology, Tissue culture and Molecular biology.

To strengthen our market share in Europe HiMedia Laboratories GmbH is looking for a field application specialist with deep knowledge in Microbiology.

Your tasks:

- Handling the technical inquiries of our European distributors and key accounts
- Development of customized solutions and technical support for our customers
- Realization of product training and international European product presentations and seminars for our European distributor network
- Promotion of products and demand generation
- Close cooperation with the German office
- Reporting to head office in India

Your profil:

- M.sc. of Biology, core area Microbiology
- Fluent in English and German
- Team oriented and well structured working skills
- Customer focused, knowledge and solution oriented thinking

If you are interested in this interesting and challenging position, then please send your complete application documents via E-Mail to Cornelia.Reuter-Frasch@himedialabs.com.

Please indicate your earliest possible date of entry as well as your desired salary.
