

Cyano2025 – 9th Early Career Researcher Symposium on Cyanobacteria – VAAM Special Group Cyanobacteria Meeting

We are happy to invite you to **Cyano2025**, the 9th early career researcher symposium on cyanobacteria. This symposium is particularly aimed at young researchers, including PhD and master students.

Topics and confirmed speakers:

Regulation, signaling and physiology of Cyanobacteria (Gen Enomoto)

Photosynthesis and light harvesting (Makiko Kosugi)

Synthetic biology and viruses (Nicole Frankenberg-Dinkel)

Ecology of Cyanobacteria (Dennis Nürnberg)

Industry Talk (Christoph Kutzner)

The meeting venue will be the RPTU University of Kaiserslautern. Situated in southwest Germany at the edge of Palatinate Forest and can be easily reached by train from Frankfurt Airport (~1.5 h).

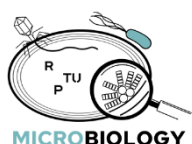

We are looking forward to your participation!

Sincerely,

Jacqueline Hackh, Miguel Fernandez, Nicola Sekularac, Nina Bäuerle and Thomas Schmidt

Everybody is accepted with a poster! Registration open until 11. August and for a talk until 15. July.
